

## Little Local Lavender Collection

Using local lavender grown and distilled up the road in Snowhill, Broadway

**Little Local Lavender/Little Local Lavender with Organic Oats:** ...who said lavender was old-fashioned?! Here at Little we consider **lavender is the new black** – it's **back to basics**, used, tried and tested over countless centuries, it's versatile, calming and relaxing so needless to say this fast become a Little classic and is perfect for the basin, bath or shower (especially before bed!) **Delight...!**

**Little Local Lavender with Tea Tree:** Cleansing, **stimulating**, invigorating and a perfect antiseptic wash after sports or to **kick start your day** (but **without the need for caffeine!**). Interestingly, our main fans of this bar are Dix and Oli, both twenty-something lads who **swear by it. Get a thrill...!**

**Little Local Lavender with Orange:** the citrus tang of Seville oranges blends fabulously with the floral hues of the lavender to produce a **balanced bar** – a **mix of France and Spain** - yes it's relaxing, but more as a general wash than one before bed... **Bask...!**

## Unperfumed Soaps

Unperfumed, unfragranced and without any natural oxide colours added – these bars have their own natural subtle scent and tailored for use on more delicate skin or as a moisturising facial bar.

**100% Extra Virgin Olive Oil:** Honed from the traditional Castille recipe, famed as **the most gentle soap** and originally only affordable by the very rich. It's the **simplest bar** we do (yet the most complex to make!) This soap has **two ingredients** – water and top grade Extra Virgin Olive Oil. **Unadulterated Mediterranean bliss...!**

**Goat's Milk and Jojoba: Untainted,** unfragranced, just a **pure and natural**, gentle soap. Lashings of creamy goat milk combined with **skin loving jojoba** make this perfect as a facial bar for **the youngest (and indeed oldest) of skins**. We call this Jessica's bar after a very special little Goddaughter... **Cherish...!**

**Cotswold Honey with Organic Oats:** Originally concocted for "the honey man" –this is his **delicious Cotswold Honey** mixed with beeswax and organic oats which makes this bar **incredibly special** - unperfumed, this is a perfect **pure moisturising** soap for both **face and body. Revel....!**
